IDEATION at HIT

A seminar on innovation

WHEN?
Sunday 27.11.2022
14:00-16:00

WHERE?
Building 1
Room 506

For the zoom meeting >

TIMELINE

13:45-14:00 Registration

14:00-14:10 Dean's Opening Remarks

14:10- 14:30 **Innovation & Valorisation in Digital Health**
What are the main keys to success in Digital Health when you are an French academician not fit to become a startuper?
Prof. Stefan Darmoni MD, Ph.D. - Rouen University Hospital & LIMICS INSERM U1142, Sorbonne University, France

14:30-14:50 **Digital Transformation in Higher Education**
The COVID-19 pandemic will have no healthcare related effects at the long term. During the COVID-19 pandemic has accelerated the digital technology revolution that had begun earlier. The changes planned for years in the higher education sector - shrunk for months. To survive to the COVID-19 challenges organizations had to run fast and adopt new ways to works and to educate their people in a short time. Moving to online and virtual worlds (such as, remote learning, mobile learning, virtual conferences and events and cloud exploitation) is critical.
Mr. David Tobias - HIT and Bar Ilan Univ.

14:50-15:00 **Coffee Time**

15:00-15:30 **PANEL - IDEATION seminar on innovation**
Panel Moderator: Dr Sofia Amador Nelke
Faculty of Industrial Engineering and Technology Management, HIT

Participants:
Prof. Stefan Darmoni MD, Ph.D. - Rouen University Hospital & LIMICS INSERM U1142, Sorbonne University, France
Dr. Michael Winokur - Faculty of Industrial Engineering and Technology Management, HIT
Dr. Eran Gal - Faculty of Instructional Technologies, HIT
Dr. Arriel Benis - Faculty of Industrial Enginering and Technology Management, HIT

BIOSKETCHS OF THE LECTERS

David Tobias has wide technological and business cred, earned over several decades. He spent over 35 years at the Israeli ICT industry, working as CIO and S.V.P for Information Technology in finance, aerospace & defense, government, education and retail sectors. Over the years, David gained considerable experience in planning strategically for local and international (at IAI and Leumi Bank) businesses by supporting global information system endeavors. He had worked on significant undertakings in different markets including Israel, Europe, United States, and India.

Prof. Stefan J. Darmoni, MD, PhD is full professor of digital health in Rouen University, Normady (Medical School). He is alsot the deputy head of the LIMICS laboratory in Sorbonne Université, Paris, France (INSERM -French NIH- U1142). He has published 189 publications indexed in PubMed; his H-index is 32. Sabbatical in HIT till May 2023.
