Project contact

ideation.projecteu@gmail.com

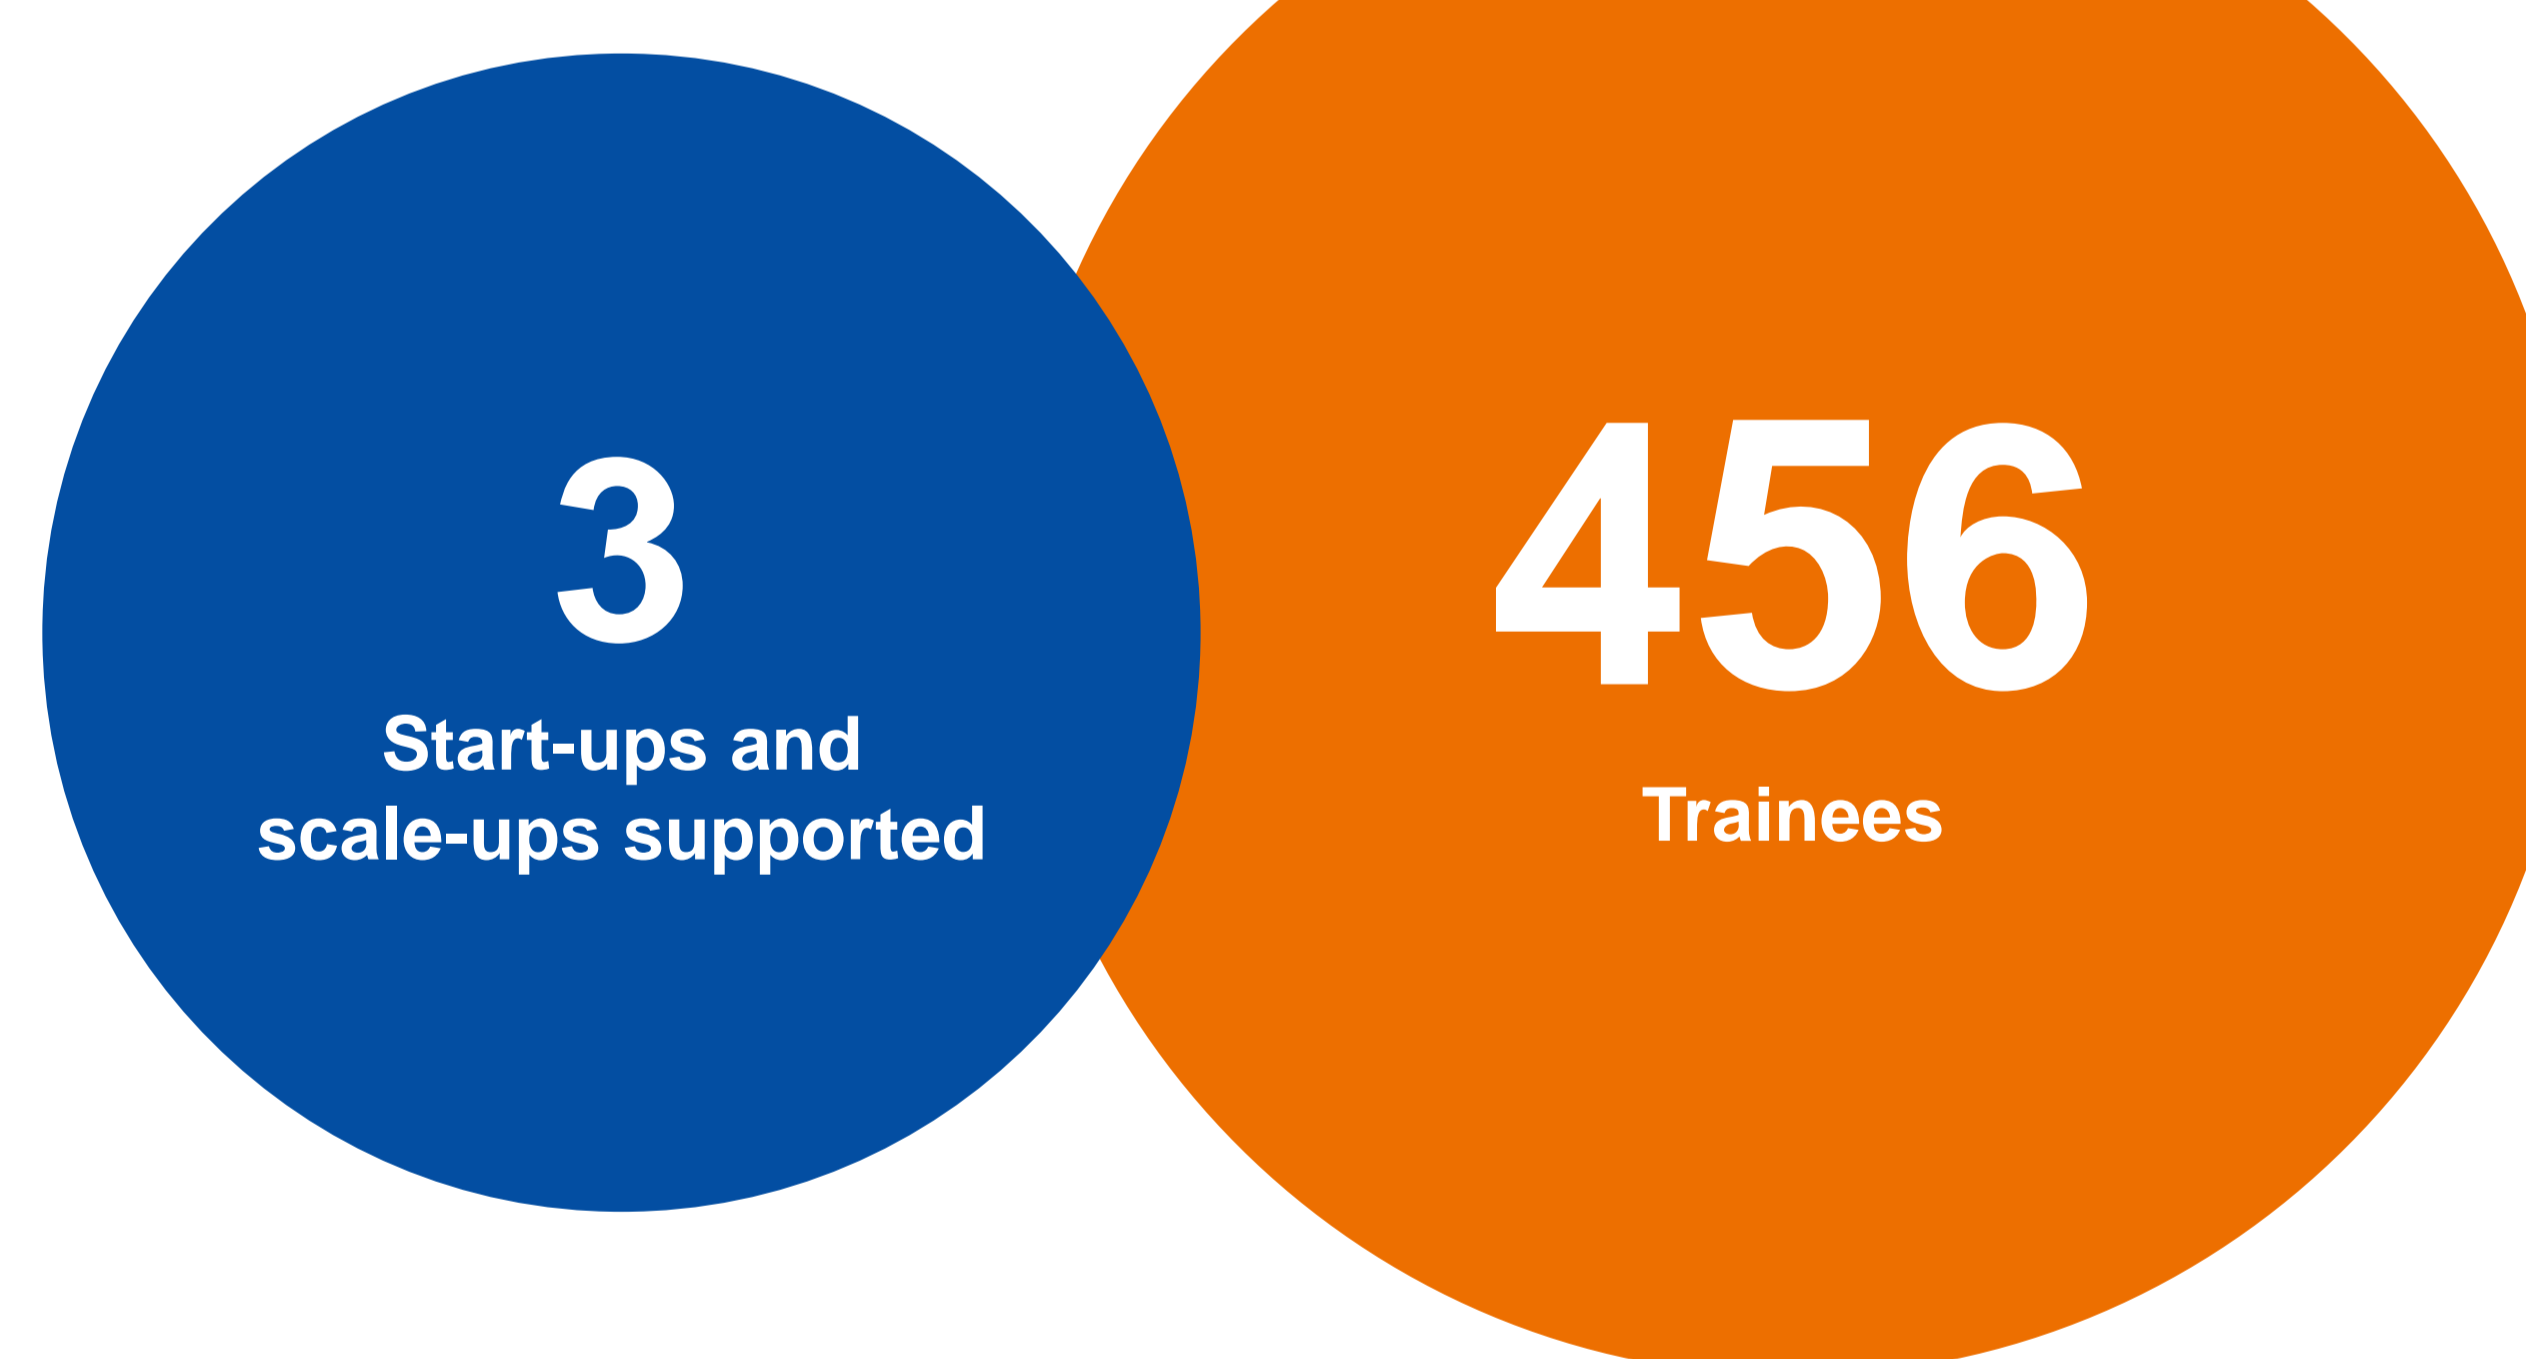

Geographical distribution (countries represented)

Poland, Germany, Spain, Israel, Italy

Our project by numbers

Highlights of the project:

The implementation of various activities (training, PIP, simulated games, etc.) has enabled more focused efforts in our HEIs to improve innovation and entrepreneurial skills and knowledge, leading to a change in the attitudes of students and academic staff towards learning new, innovation-focused soft skills

C2 Looking forward: Vision and projections for Phase 2?

The opening up of new international cooperation to allow the creation a common set of tools that support the entire IDEATION environment.
